

It will save you a great deal of time and frustration if you have a good idea of what you are looking for.

If you find it hard to determine how important different features are to you, it might help to rate each feature on a scale of 1-10 (the higher the score the more important it is to have, so '10' being a 'Must have').

	Comments	Must have	Nice to have	Can do without	Score (1-10)*
<b>The basics</b>
